4.Reminders

① You must have your Student ID to take the examination.

② Please bring or wear T-shirt with no buttons, metallic parts, prints. ←For chest X-ray test

③ Students who may be pregnant should say so on the day of the test. They will not be given the chest X-ray test.

④ If you take the examination during the above period, Health Examination Certificates will be issued by the automatic certificate issuing system from May 22 (Fri).

⑤ Health Examination Certificates based on the results of the previous school year's examination will be issued until May 6 (Wed).

⑥ If you are new students entering in this school year and cannot avoid missing the Student Health Examination, you must be examined at an external medical institution and submit the medical examination certificate(copy)to the academic affairs representative of your department by July 1st(Wed).
※ off-campus health checkups will be charged.

⑦ Everyone will be informed of their results. Please pick them up from the administration department of your college or graduate school after June 1st (Mon).

⑧ The Health Service Center will not be open for medical care on the day of the Health Examination.

⑨ If you need any assistance or considerations, please contact the Health Service Center.

※The medical consultation and interview forms will not be used for any purposes other than the Health Exam and its summary.
※We strictly manage all medical and other information related to the Health Exam so that it is not disclosed to a third party.
※Please be aware that this information will also be used by Health Service Center staff and external medical facilities involved in this examination.

About the Chest X-ray test

※According to the revisions to the Enforcement Regulations of the School Health Law, from April 1, 2005, students are only required to have the chest X-ray test during their first year instead of all years. However, for the early detection and prevention of infectious diseases and because the chest X-ray test results are required for the Health Examination Certificate, YNU will continue performing chest X-ray tests for all students.

※ Please inform us if you do not wish to undergo the chest X-ray test for any reason.
(Notice: You will not be issued a Health Examination Certificate when you do not have the chest X-ray test).
